- 16:20–16:40 Presentation: DALEC2 – Danube Networkers – **Zita Sebö D**
- 16:40–17:00 Presentation: IT Solutions for visually impaired users – **Terje Lovby N**

Day 2

- 09:00–10:00 Lecture: “Train your Brain” – **Drin Daniela Pinter A** Med Uni Graz

Despite the former notion that “you can’t teach an old dog new tricks”, you are never too old to train your brain. Neuronal plasticity refers to changes in brain structure and/or function in reaction to changes in behavior, environment and neural processes. Such changes can be adaptive (e.g. during learning) or restorative (e.g. after a stroke) and occur throughout life. The adult human brain is remarkably malleable, but compared to children it seems more challenging for adults to learn new things. An overview of changes in our brains as we get older and possibilities to promote successful (brain) aging will be provided.

- 10:20–10:40 Presentation: eBook seniorsKS – **Manfred Helzle DE**
- 10:40–11:00 Presentation: eBooks als neues Medium – **Mag. Erhard Göbel A** Uni Graz

11:00–12:30 Working Group for all: Interface Society – **Roberta Mineo I, Ad Hofstede NL**
